

STERAMIST®

POWERED BY BINARY IONIZATION TECHNOLOGY®

MAINTAIN A HIGH STANDARD OF HEALTHCARE DISINFECTION

We understand that preventative measures are just as critical as immediate care in the healthcare industry, and ensuring a healthy environment for staff and patients is of the utmost importance.

Luckily, routine and one-time SteraMist® disinfection treatments can be easily implemented into new and existing facility cleaning protocols. SteraMist® has superior surface disinfection capabilities, ensuring that every bit of a treated area is covered with a powerful, 6-log level efficacy.

SteraMist® technology utilizes ionized Hydrogen Peroxide (iHP™), a non-caustic, chlorine and bleach-free fog to help create a clean environment, ensuring that patients and staff are provided peace-of-mind with minimum room downtime.

- The ultimate tool for elimination of bacteria & viruses such as **SARS-CoV-2 Coronavirus, Staph, MRSA, Norovirus, H1N1, C. difficile**, and **salmonella**.
- An effective broad-spectrum surface disinfectant.
- Goes above, beyond, under and around disinfecting sprays and wipes.

STERAMIST® IS THE SOLUTION
